## ABOUT US

We take this opportunity to introduce ourselves as an organization based in Gujarat involved in providing professional services in the field of Civil Engineering and construction primarily in Western India. Established In Rajula, Amreli India In The Year 2013 , We “Radhe Krishna Infrastructure,” Are Engaged In Providing Various Kind Of Civil Construction Service That Include Infrastructure Work, Industrial Work, Civil Construction Work, Roads, Earth Moving Services, Bricks Lining Work, Man Power Supply And Surface Miner Operation And Mining Equipment Supply. These Are Offered As Per The Requirement Of Our Esteemed Clients. We build with the intention of exceeding our clients’ expectations for safety, quality, functionality, and aesthetics, and deliver finished products that stand the test of time.

## RADHE KRISHNA INFRASTRUCTURE

We are having sufficient technical & supervisory staff and necessary plants and machinery, and hence, we are capable to mobilize our staff and equipments even for carry out any large projects with necessary time schedule

Our team of highly skilled and efficient civil engineers & skilled laborers aids in providing construction jobs to the clients. They are fully aware of the latest building technology and make use of structural designing tools, to design best engineering structures. Our personnel are experts in their field of operations and work hard to offer the services that meet the expectations of our clients and are completed within the scheduled time period.

our strong business ethics and transparent deals have helped us establish a formidable position in the field of all land, construction, road development and earth movers related needs. We have sound industrial knowledge and are well versed with market trends, enabling us in understanding specific requirements of our customers.

We use mechanized construction equipments for large and fast operation. We have a strong network of realtors spread across the country that assists us in offering more choices and better solutions to our clients.

Turnover		Surface Miner Tonage

## Our project management and execution philosophy is:

- Create detail schedule and resources plan to meet client's project objective.
- Communicate clearly with all project stakeholders
- Track project progress and fine-tune deviation
- Supervise closely on quality of work done
- Complete and commission the project on time

## OUR SAFETY

The foundation of any successful workplace safety effort is one that encourages employees to identify unsafe behaviors and opportunities for improvement while also making well-informed safety decisions during daily routine tasks

To build a safety culture aimed at continually reducing the frequency severity rate towards achieving zero accidents.

## COMMUNITY WORKS

Every person in our organization must consciously develop himself in knowledge, attitude, habits, skills and strategies in order to build a meaningful world through our work

To identify and mitigate all the environmental impacts arising from our activities and comply with applicable environmental norms.

To contribute to the development of the local community and society at large as a part of our corporate social responsibility
